

# The Cape Town Treasure Chest Is Waiting....

## Ready to Answer the Call?

<https://CapeTownTreasureHunt.co.za>

This short **6-image snapshot guide** is your first “map” - a quick briefing before you step into the adventure. Nothing complicated, nothing boring... just enough to get you moving and earning your **first treasure cards**.

This is **not** a full rulebook. Think of it as the moment when the old explorer leans in and says, “*Watch closely - this part matters.*”

Once you understand how the **platform, riddles, answers, and passwords** work, the rest of the hunt opens up before you.

### Before you continue:

You’ll need the official **Very Old Cape Town Stories** book (available as an e-book or hard copy). Each story hides a riddle that must be solved on the platform. With the book in hand, the clues begin to reveal themselves.

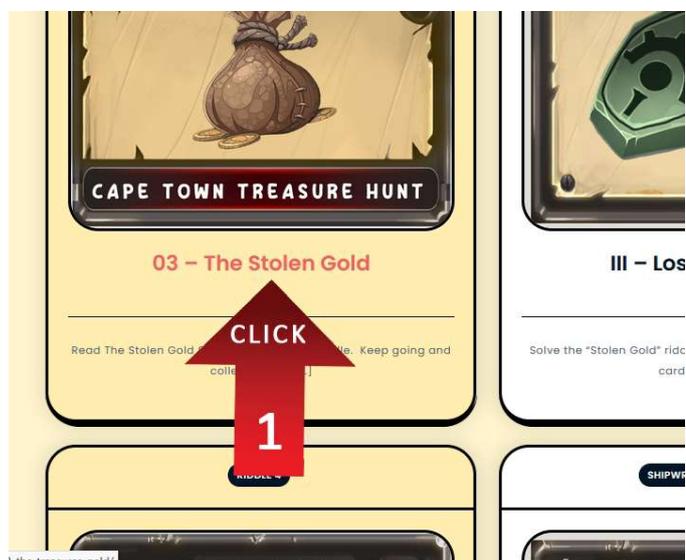

### And one more thing...

If you don’t already have the **Treasure Hunter’s Logbook**, consider getting one now. Every real treasure hunter keeps a log - notes, clues, sketches, and discoveries. Trust us... you’ll want a place to record your journey.

### The adventure begins now.

Study the **6 images below**, follow the instructions, and take your first steps toward the legendary Cape Town Treasure Chest

**Step one (1) looks like this:**
