Will it be you?

How It Works (Quickly)

2. Earn Treasure Hunter Cards
3. Use the cards to solve the final mystery
4. Find the real hidden treasure chest

What Is The Cape Town Treasure Hunt?

A city-wide puzzle adventure inspired by:

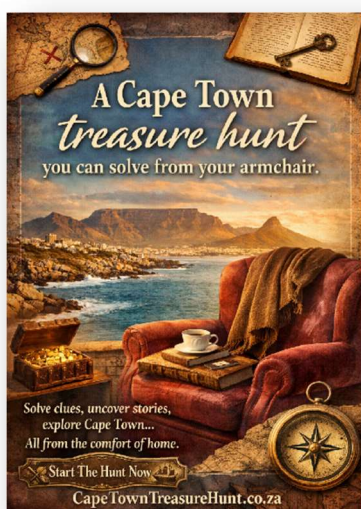

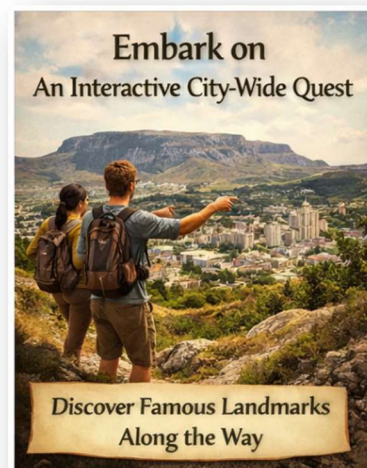

- real shipwreck stories
- forgotten Cape legends
- hidden places across the peninsula

Each story contains clues.

Each clue unlocks a new piece of the puzzle.

And when enough clues are solved...

the final location of the treasure can be discovered.

How The Adventure Works

Phase 1 – The Sherlock Holmes Phase

Solve riddles from short shipwreck stories.

Each solution unlocks a **Treasure Hunter Card**.

Collect **32 cards**.

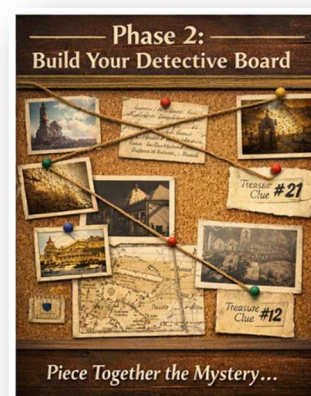

Phase 2 - The Detective Phase

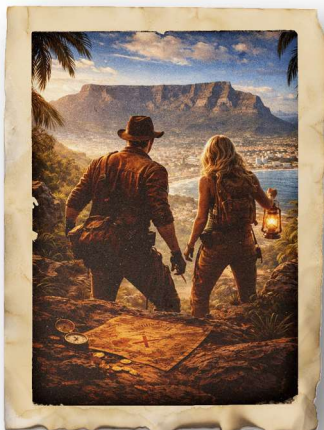

Use the clues on your cards to build the **Detective Board**.

Piece by piece the larger mystery reveals itself.

Solve the puzzle one step at a time.

Like a real detective - search for clues.

Phase 3 - The Indiana Jones Phase

Now the real adventure begins.

Visit hidden places around Cape Town to confirm the final clues.

Look for hidden signs – most have been there all along.

One hunter will find the treasure first.

What People Say

Amanda, Brackenfell:

"I'm already two weeks into the hunt and loving every minute of it. The stories are fascinating, the system works perfectly, and I've already earned a bunch of cards! Thank you for this amazing experience." ★★★★★

Penny & James, Gordon's Bay:

"What a brilliant game! We thought we knew everything there is to know about Cape Town - it's been our home our entire lives. Wow... the stories are incredible, the riddles and clues are fun to solve, and the online system works perfectly. The cards are fantastic - everything is just so cool. Thank you!" ★★★★★

Martin, Pinelands:

"I wish I could say I've found the treasure - but not yet! What I can say is this: once you start the hunt, you don't want to stop - it's that good. Every time I'm on the road, especially with Table Mountain in view, I catch myself wondering... could that story really be true? And then at night, I find myself picking up the book again to reread it. I can't help it - it's that good. I already have 24 cards, and they're brilliant too. Thanks for an incredibly fun game." ★★★★★
